RACING TECHNOLOGY

Introduction

Techsport Racing Technology was formed in 2003, aimed at providing a company that can offer motorsport engineering / design and build, as well as team management, with the aim of injecting excitement, innovation and inspiration into the products of the U.S.A's leading companies on the race track, rally stage and on the road. Our complete range of services ensures maximum return on investment for motorsport and automotive technology programmes, bringing vehicle manufacturers, and their consumers closer together.

We strive to provide uncompromising commitment to every variable of the performance equation.

Andy Brown, Manager

Techsport owner Andy Brown has designed, equipped, managed and raced his way to the podium for a wide range of motorsport teams, covering all four corners of the world, including; World rally championship with Ford, General Motors, Rover, BMW and Nissan, British Touring car championship with BMW, U.S.A rally championship with Subaru and Ford, and now the Speed World Challenge touring car series. Working with many of the world,s top drivers has provided unrivalled experience and success in the highest levels of Motorsport. Recent achievements start with winning the 2003 U.S rally championship, preparing the Subaru of Shane Mitchell, and Memo Gidley,s 3rd place podium finish in the last round of the U.S touring car series at Laguna Seca, driving a Techsport prepared Ford Focus.

Total Performance

Our aim is to develop and market a product to its maximum potential. Performance extends in to every stage of the vehicle, and component development, testing, racing and manufacture are all essential in optimizing each vehicle system. C.A.D capabilities enable us to engineer to the highest level. Development and testing are a major part of our company, proving designs while eliminating any weakness. Success at the track is the end result, and a hugely powerful marketing tool. Techsport aim to focus design, development, testing, motorsports and marketing, providing sponsors with a high profile and professional business partner.
