B-885

\$5.95

Build a grid dip oscillator, a shortwave converter, a slow motion dial drive, space-wound coils and more! Volume two in this series which contains tricks, tips and secrets to help the builder of simple radios and electrical gear achieve high performance at minimal cost! 48 pp.

Classic Cones

B-887

\$29.95

A pictorial reference and Value Guide for 1920's Radio Cone Speakers

By Buford and Jane Chidester

In the latter part of the 1920's, radio manufacturers turned their attention to designing speakers that would look attractive and blend in with the home environment as well as sound better than the horn speakers produced in the earlier part of the decade. This full color book provides photos, descriptions and current values for almost 300 different models of radio cone speakers from the 1920's. It also includes many advertisements for the speakers shown. 122 pp.

The Guitar F/X Cookbook & CD ROM

B-888

\$14.95

By Chris Amelar

The ultimate source for guitar tricks, effects, and other unorthodox techniques. This book demonstrates and explains 45 incredible guitar sounds using common stomp boxes and a few unique techniques! Fully Illustrated. 55 pages.

The BOSS Book

B-889

\$19.95

The ultimate guide to the world's most popular compact effects for guitars. Included: Complete detail and story on every BOSS compact ever made, photos, design history, trivia, tricks, secrets and more, candid interviews with the BOSS founder and design engineers, essays on musical trends and famous players, a CD ROM featuring 72 guitar sounds with control settings and detailed equipment set-ups to take your playing to a whole new dimension. 121 pp.

Beatles Gear

B-890

\$39.95

By Andy Babiuk

This book details exactly which guitars, drums, amps and keyboards the Beatles used at key points in their relatively brief but entirely revolutionary career - from the formation of The Quarry Men skiffle group to the dissolution of the Beatles in 1970. Fully illustrated and with many stories told for the first time, this book is a must for every music or Beatles fan! Hardcover. 256 pp.

MODERN WITH A TOUCH OF ENGLISH

As seen in *Guitar Player*, *Guitar One* and *20th Century Guitar*

Jensen® Mods™, a new series of Jensen® musical instrument speakers developed to give the player a contemporary feel with a touch of the old British sound.

The Jensen® Mod™ Series speakers are designed for those precision amplifiers, which require a speaker that complements the signal without changing the signatures of the amp itself. This combination of transparent sound with a touch of English makes the Jensen® Mods™ perfect for any amplifier.
